This home has been frozen in time! This classically beautiful mid-century charmer has been meticulously maintained, and updated in many ways. It features stunning vinyl plank hardwood floors, lots of windows and natural light, and beautiful French doors leading to the main floor den. Stay cool in the summer with ceiling fans and central AC, and cozy up by the fireplace to stay warm in the winter! You'll find that this home has a very spacious, park-like back yard oasis with several mature trees and flower beds. Adjacent rear lot is available to buyer for an additional \$80,000. If you're looking for a move-in ready home with a little extra elbow room, this is the house for you!
